FRENCH HEALTH MINISTRY VERAN PREVENTS THE USE OF ANTI-INFLAMMATORY DRUGS

MAY WORSEN INFECTION OF COVID-19

Paris, Washington DC, 14.03.2020, 15:31 Time

USPA NEWS - THE TAKING OF ANTI-INFLAMMATORY MAY BE A FACTOR FOR AGGRAVATION OF COVID-19 INFECTION
The Minister of Health Olivier Veran advised not to take anti-inflammatory that drugs could be a factor in worsening the infection, Coronavirus, COVID-19. Taking anti-inflammatory drugs (ibuprofen, cortisone ...) "could be a factor in worsening the infection" in patients with Coronavirus, warned health minister Olivier Veran on his Twitter account on Saturday.
Hospitals of Paris (APHP) "never faced a phenomenon of such magnitude", according to Martin Hirsch the director general of the Public Assistance-Hospitals of Paris (AP-HP), Martin Hirsch, affirms, in a published interview Saturday by Le Monde, that his institution has "never been faced with a phenomenon of such magnitude" as that of the coronavirus, but that hospital teams are "ready".

COVID-19 SYMPTOMS COMPARED TO FLU AND COLDS In order to clarify the similarities and discrepancies of the symptoms compared to flu and colds, Agence France-Presse published an infographic on the main symptoms of Covid-19, compared to those of the flu and colds. It is reminded that some people affected by the new coronavirus do not develop symptoms as much.FIRST CASE TESTED POSITIVE TO COVID 19 IN FRENCH JAIL IN FRESNES----------
According to the spokesperson for the Ministry of Justice : « The first detainee found positive at Covid-19 in Fresnes jail »
The Chancellery announces that an inmate has tested positive; it is the first case of coronavirus in prison. A Fresnes nurse had tested positive on Friday, FO Penitentiary announced yesterday. "The detainee has not been in contact with other detainees" said.
